

Anne McCullough Grant Guidelines

The McCullough Family has graciously established an endowment fund in memory of their daughter Anne, who passed away at the young age of 40.

Anne was always a champion for those in need, and the fund will be available to provide grant monies for students in the district who may need financial assistance. Requests for aid may be for items such as testing fees, college application fees, and leadership training opportunities, although any request for funds from a student in need will be considered.

For students in lower grades, examples of things that will be considered are classroom supplies that parents are asked to purchase, fees for a student to participate in a community sport or the bowling program, musical instrument fees, Scholastic book purchases and scouting programs.

This is a flexible grant and the guidelines will evolve as requests are received. Please keep in mind that checks will not be written to a student or family directly. The college, organization or department for which the funds are being used for will be the payee.

A grant request form is available on our website. In the upper grades, the student is asked to complete this form on his/her own. Those in lower grades may certainly have parents or teachers assist them.

Grants may be submitted at any time.
